

ARP ESSER Health and Safety Plan Guidance & Template

Section 2001(i)(1) of the American Rescue Plan (ARP) Act requires each local education agency (LEA) that receives funding under the ARP Elementary and Secondary School Emergency Relief (ESSER) Fund to develop and make publicly available on the LEA's website a *Safe Return to In-Person Instruction and Continuity of Services Plan*, hereinafter referred to as a *Health and Safety Plan*.

Based on ARP requirements, 90 percent of ARP ESSER funds will be distributed to school districts and charter schools based on their relative share of Title I-A funding in FY 2020-2021. **Given Federally required timelines, LEAs eligible to apply for and receive this portion of the ARP ESSER funding must submit a Health and Safety Plan that meets ARP Act requirements to the Pennsylvania Department of Education (PDE) by Friday, July 30, 2021, regardless of when the LEA submits its ARP ESSER application.**

Each LEA must create a Health and Safety Plan that addresses how it will maintain the health and safety of students, educators, and other staff, and which will serve as local guidelines for all instructional and non-instructional school activities during the period of the LEA's ARP ESSER grant. The Health and Safety Plan should be tailored to the unique needs of each LEA and its schools and must take into account public comment related to the development of, and subsequent revisions to, the Health and Safety Plan.

The ARP Act and U.S. Department of Education rules require Health and Safety plans include the following components:

1. How the LEA will, to the greatest extent practicable, implement prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning;
2. How the LEA will ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services;
3. How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:

- a. Universal and correct wearing of [masks](#);
- b. Modifying facilities to allow for [physical distancing](#) (e.g., use of cohorts/podding);
- c. [Handwashing and respiratory etiquette](#);
- d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#);
- e. [Contact tracing](#) in combination with [isolation](#) and [quarantine](#), in collaboration with State and local health departments;
- f. [Diagnostic](#) and screening testing;
- g. Efforts to provide COVID-19 [vaccinations to school communities](#);
- h. Appropriate accommodations for children with disabilities with respect to health and safety policies; and
- i. Coordination with state and local health officials.

The LEA's Health and Safety Plan must be approved by its governing body and posted on the LEA's publicly available website by July 30, 2021.* The ARP Act requires LEAs to post their Health and Safety Plans online in a language that parents/caregivers can understand, or, if it is not practicable to provide written translations to an individual with limited English proficiency, be orally translated. The plan also must be provided in an alternative format accessible, upon request, by a parent who is an individual with a disability as defined by the Americans with Disabilities Act.

Each LEA will upload in the eGrants system its updated Health and Safety Plan and webpage URL where the plan is located on the LEA's publicly available website.

The ARP Act requires LEAs to review their Health and Safety Plans at least every six months during the period of the LEA's ARP ESSER grant. LEAs also must review and update their plans whenever there are significant changes to the CDC recommendations for K-12 schools. Like the development of the plan, all revisions must be informed by community input and reviewed and approved by the governing body prior to posting on the LEA's publicly available website.

LEAs may use the template to revise their current Health and Safety Plans to meet ARP requirements and ensure all stakeholders are fully informed of the LEA's plan to safely resume instructional and non-instructional school activities, including in-person learning, for the current school year. An LEA may use a different plan template or format provided it includes all the elements required by the ARP Act, as listed above.

* The July 30 deadline applies only to school districts and charter schools that received federal Title I-A funds in FY 2020-2021 and intend to apply for and receive ARP ESSER funding.

Additional Resources

LEAs are advised to review the following resources when developing their Health and Safety Plans:

- [CDC K-12 School Operational Strategy](#)
- [PDE Resources for School Communities During COVID-19](#)
- [PDE Roadmap for Education Leaders](#)
- [PDE Accelerated Learning Through an Integrated System of Support](#)
- [PA Department of Health - COVID-19 in Pennsylvania](#)

Health and Safety Plan Summary: **TYRONE AREA SCHOOL DISTRICT**

Initial Effective Date: **July 13, 2021**

Date of Last Review: **July 13, 2021**

Date of Last Revision: **July 13, 2021**

1. *How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?*

The Tyrone Area School District operated in a variety of instructional models during the 2020-21 school year in an effort to maintain the health and safety of its staff and students. Students in grades PreK-4th grade received face-to-face, in-person instruction for approximately 85% of the school year, while students in grades 5-12 received the same for approximately 67% of the school year. Throughout the remaining parts of the year, students learned through a combination of synchronous and asynchronous instruction. During the 2021-22 school year, the TASD will continue to monitor the latest recommendations from PDE, PADOH, and CDC and update its Health and Safety Plans, as needed and as appropriate (at minimum every six months). In addition, local data will serve as a guide to determine the impact of the virus in our local counties/communities. The monitoring will be conducted in accordance with the health and safety components listed below. The Superintendent will have the authority to adjust the Plan and its protocols, as needed in response to changing conditions, regulations, or guidance, with approval by the Board of Directors at the subsequent scheduled meeting. Prevention and mitigation protocols will focus on providing safe, **in-person instruction** and will continue to be flexible and fluid.

2. *How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?*

Instructional models will be adapted to the needs of the students as appropriate. The district will continue to offer full virtual instruction through the TASD Cyber Academy for those who prefer that format for instruction. In the event that any short-term school closures are necessary, remote learning (both synchronous and asynchronous) will be provided, as needed, utilizing the District's learning management systems, online conferencing tools, and paper/pencil activities. Devices (Chromebooks and/or Tablets) will be available for all learners. Social, emotional, mental health and other needs will be monitored and supports will be provided through the school counselors, social workers, and our partnerships with local behavioral and mental health agencies. Free meals for all students will be offered in accordance with the available programming and grab-and-go meals will be offered, as needed, for virtual and remote learners.

3. Use the table below to explain how the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC.

ARP ESSER Requirement	Strategies, Policies, and Procedures
<p>a. Universal and correct wearing of masks;</p>	<ul style="list-style-type: none"> • Masks/face coverings are optional for all individuals (staff, students, parents/guardians, and visitors) in District offices, classrooms and at school-sponsored events per the expiration of Pennsylvania’s Universal Mask Mandate requirements. • The district will require compliance with any future state or federal orders/directives which <i>require</i> masks/face coverings. • The District will require compliance with any state or federal orders which require masks/face coverings on public transportation, including school buses and vans. All school vehicles should maintain a supply of masks. • T ASD will instruct staff and students on the correct use of masks (ex. snug over mouth and nose) and will maintain a supply of masks in both adult and child sizes in all schools. • Students and staff who travel to other locations for services/events must adhere to the Health and Safety Plan of the location of service or of the event venue.
<p>b. Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding);</p>	<ul style="list-style-type: none"> • All schools will implement structural interventions to promote physical distancing to the maximum extent feasible. • Instructional spaces will support physical distancing, as appropriate and feasible. Nonessential furniture will remain removed. • Efforts will be made to maximize physical distancing, as appropriate and feasible, in the following

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>situations: between adults, between adults and students, when eating, and when increased exhalation occurs (ex. voice and instrumental music and physical education). These activities may be moved outdoors or to large, well-ventilated space, when possible.</p> <ul style="list-style-type: none"> • Schools will use cohorting (ex. self-contained classrooms, grade level groupings, etc.), when feasible, and limit contact between cohorts to minimize impact of quarantines on instruction. • Field trips will be assessed on a case-by-case basis for health and safety related needs. • Extra-curricular activities and athletics will adhere to the appropriate T ASD Health and Safety Plan and operate in line with recommendations from outside agencies (ex. PIAA, PMEA, etc.) • Bus drivers will assign seating on buses to facilitate physical distancing, as feasible, with family-group seating encouraged. • Visitors and volunteers should practice physical distancing to the extent possible.
<p>c. Handwashing and respiratory etiquette;</p>	<ul style="list-style-type: none"> • Staff will teach and reinforce handwashing with soap and water for at least 20 seconds. If handwashing is not possible, hand sanitizer containing at least 60% alcohol should be used. Appropriate signage will be utilized. • Students will be instructed to avoid touching their eyes, nose, and mouth; to cough and sneeze into a tissue or their elbow; to discard tissues appropriately; and to wash their hands/hand sanitize after blowing their nose, coughing, or sneezing. • T ASD will provide adequate supplies to support healthy hygiene behaviors, such as soap, a way to dry hands, face masks, no-touch trash cans, and

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<p>hand sanitizer that contains at least 60% alcohol.</p> <ul style="list-style-type: none"> Individuals will be encouraged to bring a refillable water bottle for personal use during the school day, which can be refilled in one of several bottle filling stations throughout the buildings.
<p>d. Cleaning and maintaining healthy facilities, including improving ventilation;</p>	<ul style="list-style-type: none"> TASD will continue the best practices developed in response to COVID-19 for keeping school facilities clean, disinfected, and safe for staff, students, and visitors. High touch surfaces and objects (ex. door handles, sink handles, toilets, water stations) within the school and on school buses will be cleaned regularly, using EPA-approved disinfectants. High traffic areas will be cleaned throughout the school day, as practical. Schools will ensure that ventilation systems operate properly and are properly maintained in accordance with the manufacturer’s recommendations. Staff will increase circulation of outdoor air when safe and appropriate in classrooms and on school buses (ex. by opening bus windows when appropriate). The sharing of materials will be limited, as feasible. Water systems will be flushed after any prolonged facility closure. Staff will use PPE appropriate for the cleaners and disinfectants.
<p>e. Contact tracing in combination with isolation and quarantine, in collaboration with the State and local health departments;</p>	<ul style="list-style-type: none"> School staff will collaborate with the PA Department of Health to report individuals diagnosed with or exposed to COVID-19. School officials will notify families of close contacts as soon as possible after they are notified that someone in the school has tested positive.

ARP ESSER Requirement	Strategies, Policies, and Procedures
	<ul style="list-style-type: none"> • Isolation should be used to separate people diagnosed with COVID-19 from those who are not infected. • Students and staff who are in isolation should stay home until they have met the criteria for release. • Quarantine should be used in accordance with current agency guidance for students and staff who may have been exposed to COVID-19 and are considered close contacts.
<p>f. Diagnostic and screening testing;</p>	<ul style="list-style-type: none"> • Staff, students, parents/guardians, and visitors are expected to self-screen at home for symptoms of COVID-19 or other contagious diseases before coming to school. • Staff and families will be educated about when they and their children should stay home and when they can return to school. Students and staff who have symptoms of COVID-19 should stay home and be referred to their healthcare provider for testing and care. • If symptoms present at school, the student's parent/guardian will be notified immediately. Efforts will be made to isolate the students with COVID-19 symptoms or suspected or confirmed COVID-19 diagnoses through use of an isolation room/area until transportation can be arranged to send them home. • Individuals with positive test results should remain home and isolate until they have met criteria for release from isolation and/or quarantine.
<p>g. Efforts to provide <u>vaccinations to school communities</u>;</p>	<ul style="list-style-type: none"> • School officials will continue to collaborate with local health care providers and pharmacies and local and state agencies to publicize and support outreach about vaccination for members of school communities. • Schools will serve as vaccination host sites if requested.

ARP ESSER Requirement	Strategies, Policies, and Procedures
<p>h. Appropriate accommodations for students with disabilities with respect to health and safety policies;</p>	<ul style="list-style-type: none"> • Appropriate accommodations in compliance with federal and state laws will be made for students with disabilities with respect to health and safety policies and procedures. • Such accommodations will be addressed through the IEP process; utilizing the collaboration of the IEP team. • Schools will prioritize in-person instruction, when possible, for students with disabilities who require special education and related services.
<p>i. Coordination with state and local health officials.</p>	<ul style="list-style-type: none"> • T ASD will maintain existing partnerships with state and local agencies (ex. PDE, PA DoH, Blair County EMA) and work with them to monitor the status of local and state data and the effectiveness of mitigations strategies being employed. • T ASD will follow the direction of the PA Department of Health regarding reporting and responding to cases of COVID-19 in the school setting, as well as other health and safety measures.

Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for **the Tyrone Area School District** reviewed and approved the Health and Safety Plan on **July 13, 2021**.

The plan was approved by a vote of:

_____ **Yes**

_____ **No**

Affirmed on: **July 13, 2021**
