

COVID-19 Information for Parents

from the School Nurse

(FAQ's)

When should I keep my child home from school?

- When they are experiencing COVID-19 symptoms that are not associated with any other known illness.
- Only **ONE** of the following symptoms is enough of a sign that the CDC recommends keeping your child home:
 - cough
 - shortness of breath
 - difficulty breathing
 - lack of taste
 - lack of smell

or **TWO** of the following:

- fever (temp greater than 100.0 degrees F)
- chills
- rigors (excessive shaking)
- myalgia – Muscle aches
- headache
- sore throat
- nausea or vomiting
- diarrhea
- fatigue
- runny nose/congestion

Should I notify the school of potential exposures outside of school?

- Please keep your child home and contact the school nurse if your child has been in close contact with a family member or person who has tested positive for COVID-19 - **OR-** if you have been contacted by the Department of Health (DOH) contact tracer and have been asked to quarantine.
- Any student/staff who is asked to quarantine by a contact tracer must be cleared to return to school by the DOH.

What happens if my child is sent home ill from school?

- If your child is sent home with a fever (over 100.0 degrees F) **and** COVID-19 symptoms, you shall be required to provide a doctor's note and/or a release from the Department of Health to return to school.

What happens if my child tests positive?

- If your child tests positive for COVID-19, the Department of Health (DOH) nurse will contact you. You will follow their protocol for contact tracing, quarantine, and return to school plan.
- If a student or staff member tests positive, they will be required to provide a release from their doctor and/or DOH to return to school.

What happens if someone (student or staff) in my child's classroom tests positive for COVID-19?

- If there is a positive case within the school district, the Department of Health (DOH) will contact the school. We will be asked to provide names and contact numbers for students/staff who are considered a close contact of the positive case (students/staff in the same classroom, bus, etc.). This is part of the contact tracing guidelines for the health and safety of all students and staff, and *no additional personal information* will be given.
- At that point, the Department of Health will direct the school to follow a specified procedure/protocol. Tyrone Area School District will follow all current DOH/PDE guidelines concerning cleaning, school closures, communication with the school community, etc. This may include one or more of the following:
 - Vigilant symptom monitoring
 - Quarantine
 - Temporary classroom closures for disinfecting/cleaning

Will my child still be able to receive required medications and health services throughout the school day?

- Yes, there will be separate "well" and sick areas in the health office for medication administration, treatments, and first aid care. There will also be a separate room for isolation.
